To whom so ever it may concern,

We are glad to inform you that **Rajeev MM (U19CJ21S0111)** from **Nagarjuna College of Management Studies, Chikkaballapur** has successfully completed his internship at KaNaada Phonetics Pvt Ltd. from 1st February, 2023 – 10th November, 2023.

During his internship, he developed a calculator program using Raspberry Pi Pico, created a ping pong ball game using Arduino Uno, converted Arduino IDE code to Python using Thonny IDE for OLED display.

We found him extremely inquisitive and hard working. He was very much interested in learning the ins and outs of controller programming and IoT based applications for both hardware and software. We also found it easy to work with him as he communicated well with our staff and appreciated his willing to learn new problem solving techniques and face new challenges.

His association with us was very fruitful and we wish him all the best for future endeavours.
